

# Interactive Weather Tools

Weather Wheel Arrow

Thermometer arrow

Thank you for your download!

Instructions:

- 1) Cut out and laminate all the pieces.
- 2) Hole punch the three small purple circles.
- 3) Cut out the narrow purple stripe on the thermometer piece.
- 4) Use Brass fastener to attach smaller arrow to the weather wheel.
- 5) Use Brass fastener to attach the longer arrow to the thermometer. Be sure the arrow points towards the unit of measurement that you will be using.

Enjoy!
